Docket No. 98-N-1265
Food and Drug Administration
5600 Fishers Lane Room 1061
Rockville, MD 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

Comments:

Even though I have an excellent Family Doctor, there are some conditions that can be successfully treated with more natural prescription, rather than "chemicals". I also have an excellent M.D. who practices Natural Wellness. This doctor uses a pharmacy out of my state for one prescription that has been very successful in my well being and my health. I am 50 years old & am so happy to be in good health. I want to stay this way far as long as possible. Please do not restrict my freedom of choice and the availability of some of the prescriptions that work without side effects.
